

PATIENT PROFILE

Tess & Alexander, age 8

Dreaming about what the future holds

When they think of their futures, twins Tess and Alexander both have buoyant dreams. Alexander hopes to become an astronaut someday, floating weightless and free in the far reaches of space. Tess dreams of long, sunny days serving smoothies at a swim-up pool bar at a posh Caribbean resort.

Whatever the reality of their futures, these siblings are up to the challenge. Tess was diagnosed at age 2 with hemiplegic cerebral palsy. Alexander was diagnosed at age 3 with hypotonic cerebral palsy. Both have undergone treatments to increase their mobility, as well as ongoing physical and occupational therapy at Children's National Medical Center.

Alexander is a proud Cub Scout and honor roll student, and is learning to play the piano. Tess is an honor roll student and a determined Brownie Scout. She recently received an award for being the top fundraiser at a school charity event. Together, Tess and Alexander love to swim, take karate lessons, sing in their church choir and ride horses.

CHILDREN'S NATIONAL MEDICAL CENTER:

Working together to help the kids in our community.

2010 Donor Report

On behalf of our young patients and their families, thank you for helping Children's Miracle Network Hospitals raise \$187,093,177 for 170 of North America's top pediatric hospitals in 2010. Thanks to your support, the Children's Miracle Network Hospitals program in the Washington, DC metro area raised \$4,211,438. Donations raised in our area benefit Children's National Medical Center and help to provide world-class care to every child in our community.

As one of our donors, you helped make 2010 a great year for our hospital—and, more important, for the many children and families we treated. In the past year, philanthropy enabled us to meet our mission of excelling in Care, Advocacy, Research, and Education in many ways.

We expanded from 283 license beds to 303 beds and opened a new cardiovascular surgery suite and operating rooms.

We provided over \$50 million in uncompensated care and served children at our main campus and

outpatient centers throughout Maryland, Virginia, and Washington, DC.

At the new Sheikh Zayed Institute for Pediatric Surgical Innovation, we hired leading physician-scientists who are working to make surgery more precise, less invasive, and pain-free for all children.

Our nurses achieved Magnet status from the American Nurses Credentialing Center, the highest recognition for nursing excellence. Only 5 percent of hospitals nationwide have achieved this status.

And let us not forget we kept over 8,000 pieces of equipment in working order.

No cost is too high to give every child the opportunity to live a happy and healthy life. Through the generosity of donors like you, we are privileged to offer children the most advance medical care possible today—and to pursue the cures of tomorrow.
